

## MRS. FRANK TO APPEAR IN BEHALF OF HUSBAND

Will Tell What She Knows of His  
Movements and Actions on Day  
of Phagan Murder.

COMMISSION MEETS MONDAY

Prisoner Also Will Be Tendered as  
Witness by His Counsel—Efforts  
to Induce Members of Jury to Sign  
Clemency Petition.

ATLANTA, GA., May 26.—An affidavit by Mrs. Leo M. Frank, detailing what she knows of her husband's movements and actions on the day of the Mary Phagan murder, will be presented before the State Prison Commission at the hearing here next Monday on Frank's application for commutation of the death sentence to life imprisonment. Mrs. Frank was not permitted under the State law to testify at the trial. Frank also will be tendered as a witness by his counsel, but whether he will be heard will depend upon the commission's ruling. This information was given out today by former Congressman W. M. Howard, who will have charge of Frank's petition.

While the State law does not permit a person on trial for murder to be examined under oath, it provides that he may make a statement to the jury. Before the case closed, Frank made a detailed statement to the jury in which he declared his innocence. When asked today if the prisoner will be heard, a member of the commission stated that no applicant for a pardon or commutation ever had been allowed to appear in such proceedings, and he was not prepared to say whether the precedent would be broken in Frank's case.

Efforts are being made on behalf of Frank to induce a majority of the jurors who convicted him to sign a clemency petition. Another movement urging clemency is under way among the ministers of Atlanta.

FRANK HAD NO PART  
IN "MURDER NOTES"

Frank had nothing to do with the "murder notes" which played such an important part in the famous trial, is expressed in a report submitted today to Governor Slaton and the Georgia Prison Commission by Albert S. Osborn, a handwriting expert of New York. Mr. Osborn, in his report, declared that he is a firm conviction that James Conley, the negro who testified that he wrote the notes at Frank's dictation, did not have "intelligent assistance" in preparing the documents. Conley, who was chief witness against Frank, now is serving a sentence of one year as accessory to the murder of Mary Phagan, beside whose body the "murder notes" were found.

In his report, Mr. Osborn says: "It seems to me that when the illegible incoherence, repetition and uncertain effect of the communications are considered, it is perfectly clear that James Conley did not have intelligent assistance in writing them."

In his original report to Solicitor Dorsey, Mr. Osborn stated that the notes might have been written at the suggestion or with the collusion of Frank. Subsequent study, he declares, has convinced him that this was incorrect.

The report submitted to the Governor today was made voluntarily. Mr. Osborn states in an accompanying letter, and with the permission of Solicitor Dorsey.

It was announced today that friends of Frank in Savannah will send a delegation to Atlanta on Monday, headed by Judge S. B. Adams, former justice of the State Supreme Court, to present to the prison commission a petition for commutation of Frank's sentence to life imprisonment.

**SOLICITOR-GENERAL OPPOSES GRANTING OF PETITION**  
It was learned tonight that Solicitor-General Dorsey, who prosecuted Frank, had filed with the prison commission a protest against the granting of Frank's petition for commutation. Chairman Davidson, of the commission, said he had received Mr. Dorsey's protest, but declined to discuss it. Mr. Dorsey also refused to make any statement.

The prison commission today received a petition from the Georgia Society of New York, through its board of governors, urging that Frank's sentence be commuted to life imprisonment.

**EPISCOPAL MINISTER WRITES TO GOVERNOR**

SAN DIEGO, CAL., May 26.—"Neither man nor beast has ever been known to have been strangled by a Jew," says a letter written to the Governor of Georgia by the Rev. Alfred K. Glover, rector of the Episcopal Church here, and made public today. The letter urged that Leo M. Frank probably is innocent of the murder of Mary Phagan. "The Jewish law and custom that compels, under pain of sin, the drawing of life blood of all animals to be slaughtered has also unconsciously applied from the time of Moses to the present to the criminal act of Jewish murderers as a kind of second nature," the letter asserted.

The writer is said to be a recognized authority on laws and customs of the Jews.

## Destroyed by Torpedo in the Dardanelles

THE BRITISH BATTLESHIP TRIUMPH.

With the sinking of the Triumph five allied battleships have been accounted for in the Dardanelles by Turkish gun fire, mines or torpedoes. Of these losses the British have sustained four—the Triumph, Ocean, Irresistible and Goliath. One French ship has been sunk—the Bouvet. In addition several other allied battleships have at various times been struck by Turkish shells and forced to retire from the fighting in the waterways.

## HIRSCHBERG MENTIONED FOR STATE PRESIDENCY

Suggested as Possibility to Head  
Federation of Labor to Succeed  
Davison.

The contest between candidates for the presidency of the Virginia Federation of Labor, which will be convened in its twelfth annual session at Fredericksburg, June 7 to 9, inclusive, promises to be the most spirited in many years.

Half a dozen men prominent in organized labor and representing the unions of different cities, are mentioned as possible candidates. Among them is Howard T. Davison, of Richmond, the retiring head of the Federation of Labor in Virginia. Friends of R. E. L. Heckman, present treasurer of the State organization, have been actively canvassing the State in his interest for some time. Strong support has also been given for Howard T. Davison, the present secretary, who is the editor of the Square Deal, the official organ of the Virginia Federation of Labor; and John Hirschberg, of the Administration of the City of Richmond. William E. Doherty, vice-president of the Virginia Federation and former of the Board of Aldermen of the City of Norfolk, who was prominently put forward recently by union leaders in several cities, has issued a statement expressing appreciation for the loyalty of his supporters, and requesting that his name be not presented to the convention. Mr. Doherty is a member of the executive board of the Virginia Federation, and feels that he can render better service as a member of the board.

**To Issue Shrapnel Permit.**  
The Board of Fire Commissioners at its meeting Monday night will take up the matter of granting a permit for the manufacture of shrapnel shells, for which a large order has been received by the Richmond branch of the American Locomotive Works. Chief Joyner said yesterday that, under the terms of an ordinance approved August 29, 1912, it is permissible to manufacture shrapnel within the city limits, provided that a permit be issued by the Chief of the Fire Department. It is probable that the board will authorize Chief Joyner to issue the permit.

**TRIES TO KILL CHILDREN, THEN ENDS HER OWN LIFE**

Mrs. Charlotte O'Neill Found Dead,  
Bullet in Her Heart—Baby Dies  
of Strangulation.

NEW YORK, May 26.—Mrs. Charlotte O'Neill, wife of Francis O'Neill, an architectural engineer employed by the Brooklyn Rapid Transit Company, was found dead today with a bullet in her heart in a bedroom of her home at 311 Eastern Parkway, an exclusive residential section of Brooklyn. In an adjoining room lay two of her three children, Josephine, one year old, and Francis, aged four, with cords drawn tightly around their necks. The boy was revived, but the baby died. The bodies were found by Mrs. Meison, Mrs. O'Neill's sister, who forced a window when she knocked at the door brought no response. Detectives said it was their theory that Mrs. O'Neill became suddenly demented. A revolver lay on the floor near her body.

## COMPLAINTS TO POLICE SHOW PICKPOCKETS BUSY

Petty Thieves Believed to Be Picking  
Here to Prey on Reunion  
Crowds.

First reports of the operation of pickpockets and petty thieves, who, it is feared, will flock to Richmond for the reunion, began reaching the police yesterday.

F. D. Green, 621 North Seventh Street, reported to the police last night that two boys in short trousers had taken his watch and fled when he took out the timepiece. He told them the incident occurred early last night before the City Hall. Green said he would be unable to identify either of the boys.

C. Walke, 1504 Fourth Avenue, Highland Park, complained that a purse containing \$7 had been stolen from him while he was in the act of boarding a street car at Seventh and Broad Streets.

W. S. Carroll, 622 Denny Street, reported that he had been robbed of a watch while on a street car.

J. A. McNichols, 3209 West Cary Street, is the latest victim of the joy-riding automobile thieves. His Ford car was stolen from before Memorial Hospital between 8:30 and 9 o'clock. No trace of it has been found up to an early hour this morning.

To assist in protecting Richmonders and the great number of visitors who will come to the city next week, thirty extra policemen will be sworn in as officers. In addition to these, each of the railways entering the city will have a corps of their best men on the ground and detectives from New York, Cincinnati, Washington and Baltimore will be here also. The local headquarters force will be increased by nine men. For the week next Sunday night.

## THINKS TRADE BALANCE WILL EXCEED A BILLION

Department of Commerce Predicts Unprecedented Record for  
Fiscal Year.

WASHINGTON, May 26.—Increase in exports and decreases in imports are expected by the United States in April, 1915, compared with the same month of the preceding year, in a statement issued today by the Department of Commerce. The exports for last month totaled \$24,470,193, or \$94,656,761 higher than the record for the same month of the preceding year.

The figures for the ten months ending April 30, 1915, show a favorable balance on merchandise transactions in excess of \$351,000,000. If to this be added the known excesses of exports over imports for the three weeks of May closing with the 22d, the net favorable trade balance thus far during the fiscal year is well over \$600,000,000, and it is probable that the export balance for the fiscal year ending June 30 next will exceed \$1,000,000,000, or about \$335,000,000 more than the former high record export balance recorded in the fiscal year 1908.

These are facts unprecedented in our commercial history. They derive, however, greater weight when it is considered that they include two months—July and August, 1914—in which the trade balance was temporarily against us.

The change from conditions existing a year ago appears from the fact that whereas by reason of large imports of foodstuffs and reduced exports of them during April, 1914, an adverse trade balance of over \$11,000,000 was then shown, there is this year in April a favorable balance of very nearly \$134,000,000, not to mention the record shows, in our favor of \$145,000,000.

## INTERESTS OF PACKERS WITH BRITISH EMBASSY

Tentative Basis of Settlement for  
Shipments Held Up Framed and  
Cabled to Great Britain.

WASHINGTON, May 26.—Satisfied that justice finally will be accorded them by Great Britain, representatives of Chicago packers today resolved for the present to leave their interests in the hands of British embassy officials here. They left tonight for the West.

A tentative basis of settlement for shipments held up by the British fleet, valued at more than \$15,000,000, has been framed and cabled to Great Britain.

One of the difficulties of the packers was cleared up temporarily today when Ambassador Page, at London, cabled the State Department that Sir Edward Grey had given assurances that the cases of four ships and cargoes held up since last fall before the issuance of the order in council, would go to trial in the prize court on June 7.

It was disclosed today that more than a month ago the packers stopped shipments of products to Scandinavian neutral ports.

**Asks Police to Find Wife.**  
H. L. Tomlin yesterday asked the police to assist him in locating his wife, Elhara, seventeen years old, who is said to have been missing from her home, 320 Semmes Avenue, since Tuesday afternoon.

## WILSON GIVES WELCOME TO ENVOYS OF CHINA

Tells Them Interest of United States Is Not Merely Commercial or Professional.

HE PREDICTS GREAT FUTURE

Commission of Business Men on Tour of This Country to Study Commercial Methods Received by Chief Executive at White House.

WASHINGTON, May 26.—President Wilson today expressed deep interest in the future of China in welcoming the commission of Chinese business men touring the United States to study the commercial methods. The President told them the interest of the people of the United States in China was not merely a commercial or a professional interest. Heeded by Kai Fu Shiao, the Chinese minister, the delegation was received in the Blue Room of the White House. Each member of the party was personally introduced by the minister.

Spokesmen for the commission told the President they brought greetings from the Chinese republic to the President and people of the United States, and that they would endeavor to make the republic a real sister.

Replying, President Wilson spoke as follows:

"It is not a mere form that I go through in expressing to you our very cordial welcome to the United States. I think that I can say to you, with the acquiescence of all my fellow-countrymen, that our interest in China is not merely a commercial interest, and is not merely a professional interest."

The people of the United States are deeply and sympathetically interested in China, and in the bright future that lies before your great republic.

"We have, of course, naturally rejoiced, to see you adopt a form of government which seems to us the best vehicle of progress, the republican form of government; and it has been a great satisfaction to us to feel that your great nation, with its unlimited capacity and possibilities, is to be linked with our own, and that we hope will be a common conviction of liberty and the progress of mankind."

## BIG SHIPPING COMBINE MAY BE ONE OF RESULTS

Delegates Attending Pan-American  
Financial Conference Interested  
in Transportation Question.

WASHINGTON, May 26.—Conferences between financial and business representatives of the United States and delegates from South American republics attending the Pan-American Financial Conference were continued today in the effort to bring about a clear understanding of the desires and needs of the Southern republics. The committee on transportation, considering what many delegates regard as the most important question for a subcommittee, which is not expected to report until Friday.

There were rumors tonight that there might result from the conference a gigantic steamship corporation, backed by all the interested countries to insure rapid, regular and safe transportation between North and South America. It was pointed out, however, that so far as the United States is concerned, its official representatives have no authority to enter into negotiations along this line, and that it is well known that private capital in the United States is reluctant to go into the shipping enterprises without assurances that there will be a modification of the navigation laws and amendments to the seamen's act passed by the last Congress.

## CLARK DENIES CHARGES MADE BY DR. MCKELWAY

Files Mass of Statistics to Controvert  
Assertions as to Wages in  
Cotton Mills.

HEARING NOT YET CONCLUDED

Labor Conditions in South and in  
Porto Rico Before Industrial Relations  
Commission—Editor of Charlotte  
Textile Paper Speaks.

WASHINGTON, May 26.—Labor conditions in the cotton mills of the South and in Porto Rico were before the Industrial Relations Commission today. The commission was unable to conclude its hearings to-night, according to program, and several witnesses will be examined to-morrow, including Samuel Gompers, president, and other officers of the American Federation of Labor.

David Clark, of Charlotte, N. C., editor of a textile magazine, submitted a statement to the commission denying in detail charges concerning child labor in the South made recently by Dr. A. J. McKelway, of the National Child Labor Commission. Clark filed a mass of statistics designed to controvert Dr. McKelway's assertions as to wages paid in the cotton mills.

"The testimony given by Dr. A. J. McKelway, on May 10, was very largely false, and where not exactly false, was so shaped as to carry a false impression," Clark's statement said.

"He testified that a large number of employees in Southern cotton mills, including 1,055 adults, were making less than \$2 per week. Pressed by Chairman Walsh, he dodged through four pages of testimony, and when finally cornered had to divide the \$2 or less amount by six in order to get the daily wage. McKelway has lived in the South and knows that no wage schedule of \$3.12 cents per day has prevailed in the textile mills for years. He could have taken data from the 1914 report of the Bureau of Labor, but he went back to the 1905 report.

The 1905 report gives the wages of North Carolina mill operatives as varying from \$3.87 to \$5.58 per week, but there is in it a table of earnings for a specified week, and in summing up the earnings for the specified week it states that in both North and South Carolina mills were a number who, of course, worked part time during that week, earned less than \$2.

"In order to give you literary figures he went back even further and gave you the statistics of 1900, waving aside the 1910 statistics with the passing remark that they were slightly different. If he had given you the 1914 statistics he would have shown that \$4 per week was the average in North Carolina and read and write, and that the percentage is higher in the other Southern States.

"He complains in his evidence that the Southern manufacturers do not welcome the representatives of the National Child Labor Committee to their mills. In the first place, the cotton manufacturers regard the National Child Labor Committee as a pest and a parasite, and in the second place experience has shown that they take advantage of every courtesy to misrepresent and falsify conditions."

**WILSON SENDS MESSAGE TO WILMINGTON CHILDREN**

WILMINGTON, N. C., May 26.—Preceding his address here today at the combined commencement of all the schools of New Hanover County, Secretary of the Navy, Dr. Daniel W. Wilson, addressed a letter signed by President Wilson, asking him to "convey my warmest greetings to the children at my own boyhood home and give them my heartfelt good wishes. I hope the best things may happen to them."

The secretary had just reviewed a parade of 4,000 school children. He referred to the recent naval parade in New York and said: "but the Dreadnought upon which the swiftness of our nation rests is the Dreadnought you saw in the parade this morning."

"You may have your warships and your cannon and you may submerge the enemy," he said, "but unless it is all in the heart of the American people it counts for naught."

## TAFT CONDEMNS POWER OF UNION LABOR LEADERS

Declares It Has Become Excessive and Detrimental to Public Weal and Good of Society.

SURELY LEADING TO REACTION

Former President Also Severely Criticizes Clayton Act and Federal Trade Commission Act as Hurtful to Business Interests of Country.

NEW YORK, May 26.—Former President William H. Taft, in an address to-night, at the annual banquet of the National Association of Manufacturers severely criticized the Clayton act and the Federal trade commission act as "detrimental to the business interests of the country," and denounced the leaders of the American Federation of Labor for exercising a "power that has become excessive and detrimental to the public weal and the good of society."

Professor Taft was co-speaker with Senator Warren G. Harding, of Ohio, who declared that "the greatest menace of American progress is the professional baiting of big enterprises."

"I fully approve," said the former President, "of the principle of labor unions. But the power their leaders have acquired by the principle of combination in their organization, has intoxicated them, and they have exercised a tyranny over society and over their own members that is certainly leading to a reaction and to a restraint of their great powers within proper and lawful limits."

"They have failed to condemn in any way, as they ought, the use of criminal methods to which in a lawless spirit their representatives at various times have seen fit to resort. They have raised large funds in the defense of men who have proven to be by their own confessions, violators of the criminal law, and they have manifested a desire to secure in express statutory declarations an immunity for labor unions from the operation of general laws that should be uniform. In other words, they have sought to make themselves and their agents a privileged class, not subject to the laws that affect every other man and even themselves when not engaged in labor disputes."

Mr. Taft said his objections to the Clayton act and the trade commission act were that "their enactment with such a blare of trumpets and avowed hostility to capital in general, with little discrimination, had a strong tendency to frighten those whose judgment determines the amount of new investments of capital, and thus to restrict the normal expansion of our business due to the reinvestment of earnings."

The speaker attacked the personnel of the members of the trade commission as "not such as to give great public confidence in their experience or judgment."
